Our people do not read!

**How can you share the Good News with people who do not or rarely read?**

- the German without an immigration background who finished school, but in everyday life he never opens a book.
- the 10% of Berliners who never finished school.

- the Muslims who are used to hearing news through stories.
- the newly arrived refugees whose German or English is limited.
- the children who learn to read at school, but at home their reading is limited to homework.

If you are reading books in Germany or in most countries of the world, you belong to a minority.

## Let's discover together,

how each of us can use "Oral Bibles" in his or her context. If you want to reach the majority, this webinar is for you. If you want to share the Good News with

- adherents of the majority religions in Asia
- Inner City people

## Is this applicable in my context?

## ROAD MAP to a great Story

# What is the Goal?

During the 5 interactive seminar sessions

- You will listen to examples from decades of practice
- You will understand why stories are important
- You will learn to craft your own stories and panoramas/summaries
- You will learn how to tell a story

The online seminar is split into five sessions, so that you can practice between the sessions. There will also be time to evaluate the stories told between the sessions.

## Four Fields

This webinar follows the pattern of the "Four Fields", a parable from Mark 4:26-29.

Result: At the end of session 5 every participant will have at least five tools ready (stories) which he or she can use in everyday life with Germans, Americans, Asians, refugees, and other migrants. You will need a Gmail-address for getting access to a google drive in order to do the homework. You will need 30-60 minutes every time for the homework.
