

Online-Seminar: Stories and Oral Bibles

Sept. 30th-Nov. 25th 2025

Experience and training from decades-long learning in Central Asia

Our people do not read!

How can you share the Good News with people who do not or rarely read?

- the German without an immigration

background who finished school, but in everyday life he never opens a book.

- the 10% of Berliners who never finished school.
- the Muslims who are used to hearing news through stories.
- the newly arrived refugees whose German or English is limited.
- the children who learn to read at school, but at home their reading is limited to homework.

If you are reading books in Germany or in most countries of the world, you belong to a minority.

Let's discover together,

how each of us can use Oral Bibles in his or her context.

If you want to reach the majority, this webinar is for you. If you want to share the Good News with

- oriental refugees or - postmodern urban Europeans or Americans
- adherents of the majority religions in Asia or Inner City people, then register

Is this applicable in my context?

“Yes, I am leading everyone to discover how to apply orality in his context.” I had participants from Europe, both Americas, Middle East, Asia and Australia, obviously they have many different backgrounds.

- You will learn how to apply this with children

The webinar is split into five sessions, so that you can practice between the sessions.. There will be also time to evaluate the stories told between the sessions

Four Fields

This webinar follows the pattern of the "Four Fields", a parable from Mark 4:26-29.

Result: At the end of session 5 every participant will have at least three tools ready (stories) which he or she can use in everyday life with Germans, Americans, Asians, refugees and other migrants.

You need a gmail-address for getting access to a google drive in order to make the homework. You need 20-30 minutes every time for the homework.
